INSTRUCTIONS

These trees would look gorgeous painted with any of the Elements glazes. We chose this one for it's neutral colors and satin finish.

Paint the trees all over with 3 coats of Mudslide using your fan brush. This color can run, so we only applied one coat to the very bottom underneath.

This piece will not get dipped into clear glaze so make sure to cover all of the white up with the glaze.

Due to the organic nature of this product, each one will look different, that's the beauty of it!

TIPS

- This isn't going to be dipped into clear glaze, make sure to cover all of the pottery.
- The amount of paint that goes on will effect the color, we did 3 good coats.
- No two will look the same due to the organic nature of this paint, that's what makes it so cool!
- The color will change drastically in firing, it's okay that it's red/orange!
